/ WORK EXPERIENCE

>> Frontend Engineer

Advansio Interactive, Lagos. | October 2021 - Current

Tech: Vuejs, Nuxtjs
- Retrieved data from APIs provided by the backend and integrated it into the frontend application.
- Worked in an agile environment with daily stand-ups, kept track of user stories/Tasks/bugs on ClickUp/Azure DevOps, and participated in 2 hours of sprint planning and sprint retrospectives per week.
- Interfaced with the design team to make sure the UI designs are practical and effective for customer use and comply with application technicalities.
- Interfaced with the backend team on Joint Application Development sessions to agree on things like models and also ensure both teams are in sync always.
- Manually tested completed features and participate in frontend cleanup sessions for secondary frontend testing.
- Optimized front-end code for faster loading, better usability, and conversion optimizations.
- Interfaced with the QA team on test feedback and bug fixes.

>> Frontend Engineer

First Pavilion Technologies. | April 2020 -January 2021
- Responsible for designing and developing interactive web applications using front-end technologies.
- Develop dashboard interfaces for displaying interactive visual insights of data.
- Collaborated closely with the team to support projects during all phases of delivery.
- Used JIRA/Trello to assign and manage tasks, defects, and backlog.

>> Frontend UI Developer

Grupa Inc, Lagos. | October 2019 - March 2020
- Designed and developed user interfaces with Vuejs.
- Developed stable and maintainable codebases.
- Monitored website performance and rectify frontend-related issues.
